

# MUHAMMAD SHAMSHAD

## FULL STACK DEVELOPER

My journey into the world of Full stack development was a challenging one. During My 1.6 Year experience and B TECH Computer Science studies, helped me be part of some good projects in a short time. I was very happy that my inputs were incorporated into live projects and made them successful.

  - **Git Repo** : <https://shorturl.at/ehORX>

## ADDITIONAL

- **Personal Skills & Strength** : Teamwork & leadership , Quick learner , Confident and creative
- **Languages**: English , Hindi , Malayalam , Tamil , Arabic
- **Passport No** : W7502451

## DECLARATION

I hereby declare that the information given above is true to the best of my knowledge

DATE : 27-09-2023

MUHAMMAD SHAMSHAD

PLACE : KOCHI

## TOP TECHNICAL SKILLS

Python

DJANGO

JAVASCRIPT

REACT JS

Redux

DJANGO REST FRAMEWORK

MySQL

Django Channel

ORM

DOCKER

Socket .io

Git

AWS

HTML

CSS

SCSS

Data Structure

## INTEGRATIONS & FAMILIAR WITH

- MongoDB
- PostgreSQL
- Material Ui
- S3 Bucket
- JWT
- Razorpay
- Stripe
- Twilio
- Adobe illustrator
- Figma
- Postman
- Swagger

## MAJOR PROJECTS AND WORKS

### Ohh Flash – Location Based Advertising Platform

Technologies used : Django Rest Framework, React js , redux ,MySQL , Stripe , socket io , git , twilio , Amazon s3, Channels

- Addressed the challenge of lacking a platform for targeted advertising to preferred customers based on location.
- Customers can specify location and preferences (e.g., food, movies, etc.) and show them with relevant advertisements.
- Vendors have to purchase coins . Implemented features allowing vendors to customise claim , counts, expiration dates, chat and more.
- Admin have data analysis of insights into user preferences and behaviours.
- **Git Repo** : [https://github.com/shamshadlive/ohh\\_flash](https://github.com/shamshadlive/ohh_flash)

### Flyer Portal – Flyer Image Viewing System

Technologies used : React js , Redux ,MySQL , Instamojo, Git

- Shop owners can upload flyers with expiration dates
- Customers can sort flyers by location and view or share them.
- **Live Link** : <https://iwillfly.in/>

### Electra Ecommerce – Electronics Product Selling Ecommerce

Technologies used : Django, MySQL, Razorpay, Git , twilio , Amazon s3

- A fully functional ecommerce website that sells electronic products
- Includes modules like , user, order, cart , payment , reports , store management etc
- **Git Repo** : <https://github.com/shamshadlive/electra-laptop>
- **Live Link** ; <https://electra.shamshadlive.com/>

### Hospital Management System– Appointment Booking Portal

Technologies used : Django, MySQL, HTML, Git

- Includes users to manage appointments & hospitals to manage doctors & appointments.
- Notable features included prescription management, login and registration for patients, doctors, and hospital administrators
- **Git Repo** : <https://shorturl.at/ip179>
- **Live Link** : <http://hospital.shamshadlive.com/>
